Hiring Manager

Emerson

Dear Hiring Manager,

I am writing to express my interest in the Software Developer role for Ovation Green SCADA at Emerson. With hands-on experience in React.js, RESTful API integration, PostgreSQL, and frontend architecture, I am confident in my ability to contribute effectively to your global development team.

During my previous projects, I have developed and deployed full-stack applications using React.js and Django, focused on clean UI/UX, real-time data integration, and robust backend services. I also bring experience with Git, TypeScript, Docker, and agile methodologies.

What excites me about Emerson is the opportunity to work on Ovation Green SCADA-driving renewable energy innovation with scalable, real-time solutions. I am eager to be a part of this impactful work.

Thank you for your time and consideration. I look forward to the possibility of contributing to your team.

Warm regards,

Paras Goel
